

TPROFEDO8 – Assessment and Evaluation of Student Learning

Development of Table of Specifications (for traditional assessment)

Instructions:

Prepare a Table of Specifications (TOS) based on your specialization. See sample TOS below:

TABLE OF SPECIFICATIONS
Ecosystems [Quarter 2 – Grade 7 – Science]

COMPETENCIES/ CONTENT OUTLINE	OBJECTIVE S	ITEM PLACEMENT						ADJUSTE D TOTAL NUMBER OF ITEMS	PERCENTAG E	NUMBER OF SESSION S
		REMEMBERIN G	UNDERSTANDIN G	APPLYING	ANALYZIN G	EVALUATIN G	CREATIN G			
1. Component s of an ecosystem	Identify which of the things found in the environment are biotic or abiotic	1,2,3,4						4	13.3%	2
2. Levels of biological organizatio n	Use a labeled diagram to describe the connections between the levels of biological organization to one another from cells to the biosphere			21,22,23,24,25,26				6	20%	3

3. Trophic levels	Describe the trophic levels of an organism as levels of energy in a food pyramid	5,6						2	6.6%	1
4. Ecological relationships (symbiotic)	Describe different ecological relationships found in the ecosystem	7,8,9,10						4	13.3%	2
5. Ecological relationships (non symbiotic)	Describe different ecological relationships found in the ecosystem	11,12,13,14						4	13.3%	2
6. Transfer of energy (food chain, food web, energy pyramid)	Describe how energy is transformed through feeding relationships	15,16,17,18,19,20						6	20%%	3
7. Effects of human activity in the ecosystem	Predicts effects of changes in the ecosystems		27,28					2	6.6%%	1
8. Ecosystem conservation	Explain the importance of collective actions and		29,30					2	6.6%	1

	preserving ecosystems									
TOTAL	...	20	4	6				30	100%	15

Computation

45 mins per session

15 sessions

Overall time spent: 675 minutes

3 sessions = 20% items = 6 items

2 sessions = 13.3% items = 4 items

1 session = 6.6% items = 2 items

Here are the steps in constructing the Table of Specifications

1. Identify a set of competencies or topics that the assessment intends to cover, considering the purpose of the assessment. Refer to the K-12 curriculum guide relevant to your area of specialization.
2. Get the total number of hours.
3. Compute the percentage by dividing the number of hours per topic by the total no. of hours
(Ex: $3/25 = 0.12$ or 12%)
4. Indicate the number of items per topic (Ex: In Topic 1, 12% of 30 is 3.6. Therefore, there should be 4 items for Topic 1).

100%

$45\text{mins} \times 17 = 765 / 60 = 12.75 \text{ hrs}$

CRITERIA & WEIGHT PERCENTAGE	EXCELLENT	VERY SATISFACTORY	SATISFACTORY	NEEDS IMPROVEMENT	Rating
	4	3	2	1	
1. Promptness in the submission of TOS (10%)	Submitted on or before the deadline	Submitted 1 day after the deadline	Submitted 2 days after the deadline	Submitted 3 or more days after the deadline	
2. Completeness (30%) a. Heading and other important details (Title/Table of Specifications, Grade Level, Quarter, Date Submitted, Grp Name, List of members) b. Competencies/ Content c. Objectives d. Item Placement e. Estimated instructional time per content f. Total No. of Items per content and behavior g. Percent of items per content h. All drafts included i. Others	Satisfies ALL of the given criteria	6-7 of the given criteria are satisfied	4-5 of the given criteria are satisfied	3 or below of the given criteria are satisfied	
3. Quality of the output (50%) a. Followed the given format b. There are items for all levels of cognitive behavior. c. There should be at least three types of tests. d. Contents cover one quarter. e. The total number of all items is 30. f. Items are arranged from easy to difficult. g. No. of items is based on estimated instructional time. h. No errors in computation.	Satisfies 9-10 of the given criteria	7-8 of the given criteria are satisfied	4-6 of the given criteria are satisfied	3 or below of the given criteria are satisfied	

i. No errors in the classifications of objectives j. Others					
4. Others (10%) a. Computerized b. Neat c. Error-free (grammar and mechanics) d. Others	Satisfies ALL of the given criteria	2 of the given criteria are satisfied	1 of the given criteria is satisfied	None of the given criteria is satisfied	
TOTAL					

Interpretation: 3-4= 90-100% 2-2.9= 80-89% 1-1.9= 70-79%
